CONTACT RELATIONAL MANAGEMENT

CRM is broadly recognized software for managing and nurturing a company's interactions with clients and sales prospects. It involves using technology to organize, automate, and synchronize business processes—principally sales activities, but also those for Marketing, Customer service, and technical support.

It uses to monitoring and recording interactions and communications. It will align marketing, sales, and service to best serve the enterprise. Often, implementations are fragmented; isolated initiatives by individual departments to address their own needs.
